

FOSSIL BONE REPLICAS - OJAI WHALE

A portion of the proceeds received from the Fossil Replicas will be donated to the Ojai Valley Whale Society a 501(c)(3) US non-profit organization dedicated to providing support for preservation, education and stewarding of California's first fossilized, 25 million year old, Family of toothed baleen whales, "Ojaicetidae." The toothed baleen whale specimen is identified as "Ojaicetidae," *Ojaicetus plunkettidetus* by the Ojai Valley Whale Society (OVWS).

INTER-COSTAL, CE0009.....\$900

Rib bone-piece - of California's first fossilized, 25 million year old, toothed baleen whale, Ojaicetidae, *Ojaicetus plunkettidetus*, January 19, 2000.
CE0009 H1.5" x L1.5" x W1.5"

CAUDAL VERTEBRATE w/ DISC, CE0006.....\$1,800

Tailbone with cartilage concretion - of California's first fossilized, 25 million year old, toothed baleen whale, Ojaicetidae, *Ojaicetus plunkettidetus*, January 19, 2000.
CE0006 H2.5" x L 2.5" x W1.5"

CAUDAL VERTEBRATE, CE0005.....\$2,200

Tailbone - of California's first fossilized, 25 million year old, toothed baleen whale, Ojaicetidae, *Ojaicetus plunkettidetus*, January 19, 2000.
CE0005 H3" x L2" x W 2.5 "

MANDIBLE in Concretion, CE0008.....\$2,500

Jaw-partial piece in rock formation - of California's first fossilized, 25 million year old, toothed baleen whale, Ojaicetidae, *Ojaicetus plunkettidetus*, January 19, 2000.
CE0008 H4.5" x L3" x W4.5"

MANDIBLE, CE0007.....\$3,500

Jaw-large partial piece - of California's first fossilized, 25 million year old, toothed baleen whale, Ojaicetidae, *Ojaicetus plunkettidetus*, January 19, 2000.
CE0007 H6.5" x L3" x W3.5"

LUMBAR VERTEBRATE/ FIRST BONE DISCOVERED, CE0004.....\$4,500

Backbone - of California's first fossilized, 25 million year old toothed baleen whale, Ojaicetidae, *Ojaicetus plunkettdentus*, January 19, 2000. CE0004 H4.5 x L4" x W7"

SIZE AND WEIGHT DEPENDENT ON FOSSIL/DISPLAY BOXES VARY. AVERAGE WEIGHT AND DIMENSIONS; 1 to 5 Lbs., 8" x 10" x 4", IMAGES NOT TO SCALE.
